

1. The Problem / Necessity / Opportunity

University calendars are often un-organized and not easily read through the official means

It is difficult to consistently organize and plan your study time and homework when you have a tight schedule.

It can be difficult to keep all your class notes, and previous exams organized in a way that is convenient.

There is no easy communication between students and teachers at UPF for creating course groups or projects.

9. Establishing the PRODUCT VISION

First of all, the scheduling app aims to facilitate time management and improve access to university resources. Furthermore, it allows users to connect with members of the same communities, helping to foster collaboration, group work, and meaningful interactions.

Secondly, it provides a space to organize, analyze, and structure course content and study materials, supported by an AI agent personalized to each user.

8. Design Principles

Usability:
Provide all the different tools/resources that may need the user of the university.

Simplicity:
We wish to facilitate the experience for the user, the simpler the better.

Security:
Implementing measures to assure the safety of the personal data of the users.

Flexibility:
Allow the users to have different universities in the same application

2. Públic objectiu

A qui se li està resolent el problema? qui utilitzarà el Producte?

Designed for students at UPF, especially those who want to have all their day-to-day academic information in one single place: schedules, subjects, assignments, exams, materials, and study planning.

Also for professors, as they can help keep the information for each subject organized and make teaching materials easier to access.

Initially, the product is focused on the UPF university community, but it could be adapted in the future for other universities.

3. Necessitats dels usuaris

Què necessiten els teus usuaris?
Quins són els seus inconvenients o tasques a acomplir?

Centralization:
Users need a single platform to access materials, schedules, announcements, and projects, instead of using multiple websites.

Ease of Use:
A simple and intuitive interface to quickly find information and reduce time spent navigating different platforms.

Organization:
Integrated tools like calendars, to-do lists, and task management to keep academic work structured.

Communication:
Built-in communication features to connect students, professors, and staff in one place.

Collaboration:
Ability to create groups, share notes, and work on projects without relying on external apps.

4. Funcionalitats

Quines són algunes de les funcions o serveis que resoldrien les necessitats dels usuaris?

Unified Academic Calendar
A centralized calendar that integrates all aspects of a student's academic life: Shows all courses and class schedules. Includes deadlines, exams, and key dates. Allows adding personal events. Updates automatically with any changes.

Study Planner
An intelligent system that optimizes students' time: Analyzes free time in the calendar. Suggests when to study or work on assignments. Prioritizes tasks based on deadlines and workload.

Collaboration Forum
A space for students to connect and collaborate: Find students from specific courses or different degrees. Create or join project groups. Share ideas, resources, and opportunities

Smart Notifications & Reminders
Sends alerts for upcoming deadlines, exams, and classes. Notifies students about important updates or changes. Helps students stay organized and on track.

University Content Integration
Direct access to official university (UPF) course content. Synchronization with enrolled subjects and materials. Ensures accurate and up-to-date academic information.

5. Proposta de valor diferencial

Què fa que el producte sigui especial? Com és millor aquest producte que el que ja estan utilitzant els usuaris?

All functionalities implemented in a unique application

Focused for UPF students

Official academic application

6. Goals and metrics.

The goal of the app is to improve the current one ,make it more functional and more user friendly

Improve the student performance

Allow users to stay on top of their tasks and deadlines

Make the current university app actually usefull

7. La veu del client

què dirien els usuaris feliços amb el producte?

I have everything I need in one app!

I don't have to spend all day training agents using all the university's resources.

I have several personalized agendas to choose how I want to organize myself

It's like having all the university's functionalities in one place.
